Important things to note when searching for a client:

- Clients included in this service are only those that are currently **active** to the Dept. of Corrections.
- The **MDOC Number:** is the unique DOC identification number assigned to the client.
- When performing a search by **Current Status:** the options you can select from are either: 1) **'In Community'** meaning that the client you are searching for is under community supervision –OR– 2) **'Incarcerated'** meaning that the client is currently incarcerated at one of the DOC facilities.
- When performing a search by **Location:** the values to select from are either one of the 8 State Facilities or 4 Main Regional Community Offices. The location type is identified in the name with either a 'Facility-' or 'Community-' appended as part of the location name.
- When performing a search by **Offense Type:** the categories listed for you to select from are crime category names and not each specific individual offense.

3. Once you have entered your search criteria, press the **Search** button to view results.

Reviewing Search Results.....

Your search results will be displayed as follows below:

Important Note(s):

- The 'Location' that is displayed to the far right is the *responsible* location for the client and who you should contact with any questions. If the client is *physically* in a different location → the location will be noted as part of the client 'status'. In the example below, the client is incarcerated at the Maine State Prison but is currently being housed at the Somerset County Jail.
- This is also used to identify clients that may have 'escaped' from a facility or have a probation warrant filed with the Courts. These alerts are displayed in red letter font – please see example below.
- The 'earliest possible release date' can change if a client receives a new sentence or has part or all of probation or other community supervision revoked. This date is different for 'In Community' and 'Incarcerated' clients.
 - For 'Incarcerated' clients it represents the earliest date that the resident could be released from a facility and includes credits for time detained in jail prior to beginning a DOC sentence, as well all possible good time credit while in DOC custody.
 - For 'In Community' clients the date represents the earliest date the client is projected to be released from community supervision should no violations of supervision occur. Note: An 'Incarcerated' client may be released from a facility and be transferred to 'In Community'.
